

PRE-INSPECTION

When returning the vehicle, at the end of the contract, there may be damages that represent costs that we didn't expect to find..

So that there are no surprises, at LeasePlan, if the driver is interested, you can use a pre-inspection service.

What is the pre-inspection service and what is it for?

It is an inspection of the state of the vehicle, like the one that is carried out at the end of the contract. This way you can know, in advance, if there is any damage to the vehicle and whether it should be repaired, with or without activation of the insurance, before returning the car.

Which damages are acceptable?

To find out which damages are acceptable when returning the vehicle, see the **Fair Wear & Tear Manual**.

When should you do it?

Pre-inspection should be done as close as possible to the end of the contract so that the valuation can be similar to the one that will be made at the time of the vehicle return.

Is it binding?

No, it's just a guide.

Where is it done?

Pre-inspection takes place at our partner **CarNext** centers.

Does it have costs associated?

It costs €40 +VAT.

How can you schedule the pre-inspection?

You should access oficinafacil.leaseplan.pt and schedule the pre-inspection at least 48h in advance.

Any further questions, please do not hesitate to contact us at 800 20 42 98.
