What's next?

## Total Guarantee

The coverage that gives you full protection

Total Guarantee is a transparent solution with a fixed deductible and a low premium, capable of protecting you in situations where less careful use of the vehicle by the drivers can bring high costs to your company. Contractually, repair costs arising from careless use by the driver are paid by the customers. What we offer is the possibility of taking out coverage which, for a low cost, will protect you from events such as these, reducing the time your vehicle is immobilised and streamlining internal processes, thus simplifying the discussion on the assignment of responsibility.

## Total Premium Guarantee

The coverage that goes beyond the Total Guarantee...

This coverage is aimed at filling a need identified by our customers by eliminating the costs associated with the use of a replacement vehicle, from claims with Total Guarantee coverage.

When you contract Premium Total Guarantee, you get Full and Total Protection against unforeseen costs: repair of the vehicle + cost of the replacement vehicle.

## What are the benefits?

### Total Guarantee

Total guarantee is an innovative solution on the national market and can be taken out independently of other types of insurance coverage. The deductible is fixed and is low in comparison to the usual costs of repairing an engine, gearbox, braking system, etc.

- Low cost per vehicle: only €1.20 per vehicle per month of the premium  
The vehicle is immobilised for less time, benefiting from the speed of a
- Claims Management area exclusively for customers who take out this coverage
- Clear definition of what is covered and what is excluded
- Increase in your degree of satisfaction and total efficiency of your fleet
- Elimination of costs not foreseen/not budgeted for

### Premium Total Guarantee

Apart from the advantages described above, Premium Total Guarantee coverage also allows you to:

- Absorb costs on a replacement vehicle arising from Total Guarantee claims
- The Replacement Vehicle provided is always of a category equivalent to the contracted rental vehicle.
- Unlimited number of days, in order to assure all of the days the damaged vehicle is in for repair
- Only €2.20 per vehicle per month of the premium
- There is no additional deductible with this coverage

## Offers that adapt to you

We have Total Guarantee and Premium Total Guarantee coverage as standard services both for existing and new customers. Existing customers, whose fleet is already on the road, can add the coverage to their fleet coverage.

Premium Total Guarantee coverage cannot be taken out without taking out Total Guarantee coverage. However, the opposite is possible, i.e. customers can take out Total Guarantee coverage without replacement vehicle coverage.

Total Guarantee and Premium Total Guarantee can be taken out independently of your other insurance coverage, thus providing you with a very versatile solution that is suited to your needs.

Security, low cost, adaptation to your needs, less immobilisation time and simple peace of mind are reasons for you to contact us and find out about the Total Guarantee solutions we have for you.
