

Incident Management

Incidents don't slow you down when you're always connected. Our end-to-end management service handles repairs, reporting, loss recovery, and replacement vehicles. We have your back, so you can get back on the road.

- Access to our nationwide network of proven repair services
- Seamless data integration and an improved driver experience
- Incident prevention when combined with our safety and telematics programs
- Single point of contact provides expert guidance

LeasePlan's incident management program helps fleet managers to dramatically lower incident costs by providing their drivers with the tools to report incidents quickly and easily, as well as fully-managed support to ensure swift repairs and recoveries.

Drivers can reach our live representatives 24 hours a day, 365 days a year. No driver left behind!
